

# DP – 20

## Diagnostic Ultrasound Diagnostic Imaging System

Median Nerve

Thyroid

Hepatic Hemangioma

Carotid

### Brilliant Ergonomics

- High resolution 12.1" LED with tilting functionality
- User-Friendly Keyboard and controls

### Excellent Image Quality

- Tissue Harmonic Imaging (THI) enhancing contrast resolution
- Quick image optimization by IP (Image Processing)
- 8-Segment TGC allowing delicate image adjustment
- Clear Image Quality With Adjustment

### Powerful Workflow

- iStation, One-Key-Save, user defined keys bringing great efficiency in your daily diagnosis

### Clinical Versality

- 8 Probes with abundant measurement packages covering traditional ultrasound applications and emerging field such as urology, MSK and anesthesia

### Weight

- Only 5.5 Kg. Take it to your patients

### Cost

- Diagnosis needs and budget conflict? Have a Try on Mindray DP-20
