

DC – N3 Pro

Ultrasound System

OVERVIEW

DC-N3 PRO is designed to provide confident ultrasound diagnosis for obstetric and gynecological healthcare, combining high image quality, versatility and affordability all in one smart system. With the best 4D imaging in range, innovative rendering modes, inbuilt tutorial module and simplified workflow, DC-N3 PRO is truly a redefinition of the base, providing you with much more than just an ordinary ultrasound imaging system.

PERFORMANCE

- PSH™ (Phase Shift Harmonic Imaging)
- iBeam™
- iClear™
- Multiple Beam Formation
- 3D/4D Imaging
- iLive
- iPageT™
- IVF Package
- Natural Touch Elastography
- Clinical Cardiac Measurement

WORKFLOW

- iScanHelper
- Smart OB
- Smart NT
- Raw Data
- iZoom™
- iTouch™
- iStorage / iMeasurement / iReport
- iStation™
- MedSight

ERGONOMIC

- 180° rotatable HD monitor.Smart OB
- DVD-RW drive and USB ports.Raw Data
- Rotatable and height adjustable control panel.
- User-programmable keys.
- Cable management design.
- 4 active transducer sockets.
- Built-in battery supporting real-time scanning.

CLINICAL APPLICATION

- Obgyn
- Nervous
- Radiology
- Cardiology
- Internist
- Pediatrician

DC – 60

Diagnostic Ultrasound System

OVERVIEW

Mindray's DC-60, incorporating innovative technologies from advanced ultrasound systems, delivers optimal image quality and a wide range of application capabilities all at an affordable cost. In particular, its unique touch gesture feature is designed to help improve workflow and facilitates ease and confidence of use, enabling you to put patient care first. Automation tools including standardized exam protocols and a number of auto-measurement packages, would help you reduce scan time, and increase everyday efficiency. Mindray understands the reality of tight working spaces, so the DC-60 lightweight system has a small footprint for increased portability and maneuverability. In short, DC-60's capabilities and efficiency make it a practical choice and a good investment for clinicians.

PERFORMANCE

- Echo-enriched Beam Forming iBeam™
- HR Flow™
- PSH™ (Phase Shift Harmonic Imaging)
- iClear™
- B-Steer/iNeedle™
- iScape™

ERGONOMIC

- 17" LED monitor with 180° rotational angle
- DVD-RW drive and USB ports.Raw Data
- 10.4" gesture sensitive touch screen with adjustable angle
- Rotatable and height adjustable control panel
- Gel warmer
- Dedicated endo.swfty transducer holder
- Built-in battery

WORKFLOW

- Gesture Sensitive Touch Screen
- Auto IMT (Intima-Media Thickness)
- iScanHelper
- Raw Data
- iZoom™
- iTouch™
- iWorks™
- MedTouch
- iStorage™
- iStation™
- Elastography
- Power Doppler

CLINICAL APPLICATION

- Obgyn
- Radiology
- Cardiology
- Urology
